

Bulletin No.45

Summary of the Results of the "Study on the Development of Human Resources in Periods of Technological Innovations and Aging Workforce"

January 1983

Research and Development Institute of Vocational Training,
Employment Promotion Projects Corporation
In-Plant Education Research Society

Contents

I. Outline of the Study	1
1. Purpose of the Study	1
2. Coverage and Valid Responses Received	1
3. Method of the Survey	1
4. Period of the Survey	1
II. Summary of the Results	2
1. Changes in Production and Employment	2
2. Introduction and Use of Automated Machinery	3
3. Progress of Technological Innovations and Changes in the Work Contents of Skilled Workers	5
(1) Characteristics of personnel assigned to automated machinery ...	5
(2) Qualitative changes of skills resulting from technological innovations	7
(3) Ability requirements which enterprises expect workers to possess and areas where skilled workers give full play to their skills	11
(4) Adaptability to changes	13
4. Japanese System of Human Resources Development and Utilization	16
(1) Recruitment and training of prospective key skilled workers	16
(2) Training of versatile workers	18
(3) Small group activities	20
(4) Utilization of older workers	22
5. Implications of the Study Results	26
(1) High adaptability at the production sites and supporting factors	26
(2) Limits of the adaptability	29
